Benefits of using NEXTbus

Rutgers provides bus routes to not only Rutgers Students, but also to NJIT, UMDNJ and ECC.

NEXTbus is the newest innovation in public transportation.

NEXTbus uses real time GPS tracking to monitor the position of each shuttle and predict accurate arrival times.

These times are then displayed on digital signs at each stop. You can also access the predicted times many different ways.

- Online at nextbus.com
- Cell phone with texting
- PDA or mobile device

NEXTbus saves you time waiting for the bus by providing accurate, real-time, arrival times.

For more information about routes or times go to:
http://www.nextbus.com/predictor/simpleRegionSelector.shtml and click on Rutgers Newark College Town Shuttles
Or go to http://nwkpolice.rutgers.edu
